

**A CORRECTION TO "ON THE ITERATION OF LINEAR  
HOMOGENEOUS TRANSFORMATIONS"**

ARNOLD DRESDEN

The theorem proved in the note entitled *On the iteration of linear homogeneous transformations*, published in this Bulletin, vol. 48 (1942), pp. 577–579, was proved by Rufus Oldenburger, in a paper on *Infinite powers of matrices and characteristic roots*, which appeared in the Duke Mathematical Journal, vol. 6 (1940), pp. 357–361. My apologies are due to Professor Oldenburger.

**AN ADDITION TO "GENERALIZATIONS OF THE  
BERNOULLI POLYNOMIALS AND NUMBERS  
AND CORRESPONDING SUMMATION  
FORMULAS"**

TOMLINSON FORT

In the third paragraph of my paper *Generalizations of the Bernoulli polynomials and numbers and corresponding summation formulas*, published in this Bulletin, vol. 48 (1942), pp. 567–574, no explicit statement is made of the fact that it is assumed that  $P$  and  $Q$  as operators on  $x$  obey the laws:  $PF(x+c) \Big|_{c=0} = PF(x)$ ;  $QF(x+c) \Big|_{c=0} = QF(x)$ .

Also the statement  $f_n(0)=0$ , should read  $f_n(0) = 0, n > 0$ .
