Title	On A General Class of Generating Functions Involving Modified Bessel Polynomials
Author	S.K. Kar
Issue	<i>Vol. 88, No. 5, October 1996</i> <i>Article No. 51, Pages 363-366</i>
Abstract	In this paper a general class of generating functions involving modified Bessel Polynomials $Y_n^{(\alpha+n)}(x)$ and Laguerre Polynomials $L_m^n(x)$ are obtained known bilateral generating functions are also obtained as a particular case.
